

See who's got 'em. . . .#

This is an alphabetical list of all the folks that have Missouri Marshal Loadin Blocks. I'm not sayin these folks endorse my Loadin Block or even that they use them. I'm only sayin that they have one. If ya don't want yur name on my list email me and I will remove it. If ya want to send me a short endorsement I will add it. Many folks have said how much they like my Loadin Blocks but I didn't have their quotes when I started this page.

I have looked at several loading blocks, and loading strips. I have seen many, with much less quality, at the same, and often higher, price. My opinion is that you sell a quality product, at a very reasonable price. Heck, when you consider that each pard can have his alias stamped on, then each one is almost "custom". Mark me down as a well satisfied customer, that will undoubtedly buy from you again."
